

8th Annual Sustainable Leadership Awards

SPONSOR
PACKAGE

SPRING 2017 RICHMOND, VA

Now in its 8th year, Viridian's Sustainable Leadership Awards is an opportunity to network, mark our industry's collective growth, and recognize the region's leaders in high performance housing including developers, builders, architects, government officials and other industry professionals.

We rely on sponsorships to host this event. As a sponsor, you will help us recognize award winning projects, builders, and developers in the single-family and multifamily markets. Sponsors receive industry exposure leading up to, throughout and following the event, including announcements, press releases and the feature presentation. Sponsors also receive at least two complimentary tickets to encourage interaction between sponsors and partners and to create opportunities to network with the state's leading green building professionals.

8th Annual Sustainable Leadership Awards

SPONSOR PACKAGE

Sponsorship Agreement

Your support matters. All sponsor contributions go towards the event and Viridiant, a local non-profit promoting energy efficient, sustainable housing. Viridiant prides itself on offering education, consultation and superior quality, affordable programs that can suit the needs of any builder or developer who shows a commitment to high performance home building.

Residential buildings make up almost 27% of the energy consumption in Virginia. With your support, we can touch more houses, making a significant impact not only on the state's energy use but also on the lives of the residents who will enjoy comfortable, healthy, and affordable homes.

ABOUT VIRIDIANT

Viridiant is a non-profit organization committed to supporting sustainable building processes through education, consultation, and certification. Through certification programs including EarthCraft and Viridiant Net-Zero, Viridiant helps to set a path for sustainable, affordable, energy efficient construction. Viridiant's technical experts work as a trusted third party to keep construction on track towards improved efficiency and durability, while making sure your home or development is completed with minimal waste and environmental impact.

With the development of new innovative services such as energy monitoring and assessment tools, unbiased consultation on emerging energy topics, and more, Viridiant continues to educate and promote energy efficiency. Having served nearly 20,000 families in only 10 years, we know that through education and technical support, we can reduce a family's monthly housing expenditures, allowing families to invest in their future and community. This, combined with the reduced impact on our environmental resources, will serve a healthier, more sustainable future.
